PROFESSIONAL SUMMARY

Full Stack Developer skilled in React.js, FastAPI, Node.js, and MySQL/MongoDB, with hands-on industry exposure in enterprise solutions. Strong foundation in REST API development, database management, role-based applications, and end-to-end web architecture, backed by practical work across client assignments and academic projects

TECHNICAL SKILLS

Programming Languages: Python

Databases: SQL, MySQL, MongoDB

Frontend: React.js, HTML5, CSS3, JavaScript

Tools & Platforms: Git, GitHub, VS Code, Postman

Backend: Node.js, FastAPI, JWT Authentication

Soft Skills: Problem Solving, Team Collaboration, Communication

INTERNSHIP EXPERIENCE

Viyashra Group of Companies

Web Development Intern

Jan 2026 – June 2026

- **Undertook a 6-month on-site Web Development Internship**, participating in daily coding activities, technical discussions, communication sessions, and collaborative development practices.
- **Owned the Student Module** of the *In2In Immigration Gateway*, built with **HTML, CSS, JavaScript, PHP, and SQL**, covering student registration, information, records, monitoring, and post-registration client transition activities.
- Worked within a **4-member development team** alongside members handling the Employee, Officer, and Admin modules, contributing to client requirements, testing, issue resolution, and successful project delivery.
- Delivered a final-year Business Intelligence project spanning **4 key capabilities** — **interactive dashboards, inventory risk analysis, demand forecasting, and what-if simulations** — while contributing to client requirement gathering and receiving the **Professional Excellence Award** for performance and contribution.

CodSoft

Web Development Virtual Intern

Jul 2025 – Aug 2025

- **Completed a 1-month virtual Web Development Internship**, applying practical learning through coding exercises and project assignments with **HTML, CSS, JavaScript, Python, and SQL**.
- Completed all 3 assigned projects — **Digital Calculator, Landing Page, and Static Web Page** — applying HTML, CSS, JavaScript, Python, and SQL to strengthen practical frontend and programming skills.

PROJECTS

Business Intelligence System

React.js, Node.js, MySQL, FastAPI

- **Addressed fragmented sales and inventory data** by building a centralized Business Intelligence platform with interactive dashboards, giving users a unified view of sales, inventory, product performance, and business operations.
- **Solved stock management challenges** through risk-based inventory monitoring that identifies low-stock, critical, and expiring products, helping users prioritize replenishment and maintain better stock availability.
- **Enabled predictive business planning** by integrating a FastAPI-based Machine Learning service with historical business data to generate demand forecasts and support informed sales and inventory decisions.
- **Reduced uncertainty in business decisions** through what-if simulations and price analysis, allowing users to evaluate the potential impact of pricing, discounts, and other decisions on projected sales, revenue, and profitability.

FormFlow – Enterprise Workflow & Approval Management System

React.js, FastAPI, MongoDB, JWT, Pydantic

- **Replaced manual request and approval handling** with a three-tier workflow connecting Employee, Manager, and Admin roles, creating a structured process for leave, feedback, client registration, and employee onboarding activities.
- **Established secure role-based access** through JWT authentication, protected routes, and Pydantic validation, while building FastAPI REST APIs and MongoDB operations to ensure controlled and reliable data processing.
- **Strengthened administrative control** with analytics, approval tracking, user management, and activity logs, giving administrators better oversight of workflow progress and a traceable record of system activities.

EDUCATION

Sri Manakula Vinayagar Engineering College

Master of Computer Applications (MCA) | CGPA: 8.92/10

2024 – 2026

St. Joseph's College of Arts & Science

Bachelor of Computer Science | CGPA: 6.8/10

2021 – 2024

CERTIFICATIONS

- **Python Certification** – Saylor University (2026)
- **AWS Academy Graduate** – AWS Academy Cloud Foundations (2025)
- **Web Development Intern** – Three Baboons Technology (2024)
