PROFESSIONAL SUMMARY

Aspiring Full Stack Developer with hands-on experience in full-stack web application development through internships and academic projects. Proficient in building responsive, scalable, and user-centric applications using modern web technologies. Strong problem-solving skills, quick learning ability, and a collaborative mindset with a passion for delivering practical software solutions.

TECHNICAL SKILLS

- Programming Languages:** Python
- Frontend:** React.js, HTML5, CSS3, JavaScript
- Backend:** FastAPI, REST APIs, JWT Authentication
- Databases:** SQL, MySQL
- Tools & Platforms:** Git, GitHub, VS Code, Postman
- Soft Skills:** Problem Solving, Team Collaboration, Communication

INTERNSHIP EXPERIENCE

Viyashra Group of Companies

Web Development Intern

Jan 2026 – June 2026

- Engineered features for enterprise web applications by collaborating with development team on client requirements.
- Developed and optimized the Student Immigration Module of the In2In Immigration Gateway using HTML, CSS, JavaScript, PHP, and MySQL.
- Automated testing and issue resolution workflows to improve application functionality and reliability.
- Earned the Professional Excellence Award for outstanding performance and contribution during the internship.

CodSoft

Web Development Virtual Intern

Jul 2025 – Aug 2025

- Developed responsive web pages using HTML, CSS, and JavaScript with a focus on usability and compatibility.
- Strengthened front-end development skills through practical implementation of modern web technologies.
- Gained hands-on experience with version control practices and industry-standard web development workflows.

PROJECTS

Business Intelligence System

React.js, PHP, MySQL

- Designed and built a Business Intelligence System to support data-driven decision-making through dashboards.
- Implemented modules for sales analysis, profit and loss tracking, inventory management, stock monitoring.
- Built predictive reporting features to monitor business performance and improve operational efficiency.

FormFlow – Enterprise Workflow & Approval Management System

React.js, FastAPI, MongoDB, JWT

- Developed a full-stack enterprise workflow and approval management system using a three-tier architecture with Employee, Manager, and Admin roles secured through JWT-based authentication.
- Built 15+ REST APIs using FastAPI with role-based access control, Pydantic validation, and MongoDB CRUD operations for leave requests, feedback, client registration, and employee onboarding workflows, reducing manual approval processing time significantly.

ChocoBliss – Chocolate E-Commerce Website

HTML5, CSS3, JavaScript, Python, SQL

- Engineered a responsive chocolate e-commerce platform featuring product customization, intelligent search, category filtering, and seamless cart management.
- Designed an interactive, mobile-first frontend with optimized performance, client-side validation, and intuitive user experience across devices, improving page load speed by approximately 30% and enhancing mobile conversion.

EDUCATION

Sri Manakula Vinayagar Engineering College

Master of Computer Applications (MCA) | CGPA: 8.92/10

2024 – 2026

St. Joseph's College of Arts & Science

Bachelor of Computer Science | CGPA: 6.8/10

2021 – 2024

CERTIFICATIONS

- Python Certification** – Saylor University (2026)
- Web Development Intern** – Three Baboons Technology (2024)
